President's Message
2019/20

Dear Members,

First and foremost, please accept my sincere gratitude for the continued support and patronage extended by our members.

As I pen this, all of you as CSSL members are coping up with the most profound global crisis any of us has ever experienced. During these times, our individual and collective resilience and commitment is being tested as never before.

The Computer Society of Sri Lanka (CSSL) which is considered as the hallmark of ICT professionalism in the country continue to achieve greater heights serving those who are engaged in the industry and the nation despite the ongoing pandemic situation around the world. This year too, we placed our commitment to the "Five Pillar Strategy 2020 and Beyond" which was unveiled during the Annual General Meeting held in 2018.

We managed to ensure business as usual during lockdown period having the Secretariat functional via remote working and Executive Council continuing to focus on all activities without any hindrance.

Our engagement during the past year had been a fulfilling and we managed to deliver some amazing results.

Some of the key milestones of this year were:

• Continuous state and private sector institutions interactions

• Successfully conducted the first ever virtual National IT Conference 2020 under the patronage of Hon. Mahinda Rajapakse as the Chief Guest with a record number of participants joining online

• Aligning the ICT Awards in order to recognize the various new dimensions of the professional sector

• Arranged online webinars in order to stay engaged and to fulfill the requirements of members

• Entered into a joint partnership with CISCO Networking Academy in order to deliver free and low-cost training opportunities to both members and non-members

During Financial Year ended 31st March 2020, we managed to record a profit of LKR 3.2 million due to the efforts of successful NITC 2019 and extensive cost containment drive. NITC 2020 virtual experience brought new vistas to the Sri Lanka's longest running ICT event in which we noticed a greater industry stakeholder participation covering Ministry of Technology, Ministry of Education, ICT Agency, and a large number of sponsors placing their trust despite handling the event via an online platform.

Exceptional times call for exceptional professionals. And I have seen from those of you I've had the privilege of engaging with over my time as president have demonstrated that CSSL members have the skills, innovation and spirit to weather the current crisis. I earnestly request you to stay engaged with CSSL.

Finally, I wish to take this opportunity to thank members of the Executive Council, all members, Staff of the Secretariat, sponsors, and partners for the valuable support rendered towards CSSL to reach greater heights and to serve the nation.

Thank you.

Prabath Samindra Wickramaratne
President
CSSL

NITC 2020

Computer Society of Sri Lanka (CSSL) wish to mark the successful conclusion of the National Information Technology Conference (NITC) 2020 in virtual format amidst Covid 19 pandemic. Prime Minister Mahinda Rajapaksa inaugurated the 38th edition of the country's flagship ICT conference themed 'Towards a Sustainable Digital Sri Lanka' organized by CSSL, country's apex body representing ICT professionals.

Newly appointed Secretary to the Ministry of Technology Mr. Jayantha De Silva graced the inauguration as the Guest of Honor and delivered the inauguration Keynote Speech.

This year's National Information Technology Conference was organized under the leadership of President of CSSL Mr. Prabath Samindra Wickramaratne and Conference Chair was Mr. Heshan Karunaratne, while Professor Koliya Pulasinghe was spearheading the academic track and colloquium of the conference.

Inaugural day fireside chat with Mr. Jayantha De Silva, Secretary Ministry of Technology (MoT), Prof. Kapila Perera, Secretary Ministry of Education (MoE) and Mr. Oshada Senanayake, Director General Telecom Regulatory Commission of Sri Lanka (TRCSL) moderated by Vice President Huawei Technologies and executive council member Mr. Indika De Zoysa was the key highlight of the inauguration day of the conference. Three important government policymakers of the digital industry shared the policy direction of the government with conference delegates on the

theme "Sustainable Digital Sri Lanka". Digital ID project of ICTA , "Gamata Sanniwedanaya" rural connectivity program of TRCSL and "e-Thaksalawa" e-learning portal of Ministry of Education were some of the key projects highlighted at the panel discussion.

Second day panel discussion with the participation of key industry stakeholders Mr. Sanjaya Mohottala Chairman BOI, Ms. Lakmini Wijesundara Founder/CEO of BoardPac, Mr. Madu Rathnayake CIO of Virtusa/Board Member of ICTA and moderated by Mr. Sachindra Samararatne, of ICTA shared important insights on the topic of " journey towards USD 3 Billion ICT exports"

NITC 2020 also featured CSSL's annual colloquium track. More than a dozen research papers shortlisted after an assiduous selection process were presented by local and international researchers on the second day of the conference.

NITC 2020 on line edition was supported by the Presidential Secretariat and Information and Communication Technology Agency (ICTA) of Sri Lanka as the National Partner. Huawei was the Diamond Sponsor, and Sri Lanka Telecom and Mobitel joined as the joint Principal Sponsors. SLIIT as the Gold Sponsor and Axiata Digital Labs as Exclusive Innovation Partner came on board to support the NITC 2020. Independent Television Network (ITN) was the electronic media partner and Wijeya Newspapers were the Print media partner of the event.

CSSL National ICT Awards 2020

CSSL National ICT Awards was conducted for the eighth consecutive time with the objective of recognizing and motivating ICT professionals who are making immense contributions towards the upliftment of the ICT industry of Sri Lanka. National ICT accolades aims to lift our ICT professionals to the global arena enabling Sri Lankans to lead the shaping of the new digital paradigm in Industry 4.0 era. National ICT Awards Judging process was completed and winners were selected in September 2020. Winners will be announced in due course at the CSSL National ICT Awards Ceremony which was postponed due to the Covid-19 pandemic situation. CSSL National ICT Awards were conducted under 4 themes namely, Elite Awards, ICT Management Awards, ICT Industry Awards and Student Award and 12 Award categories.

Day 03

National School Software Competition (NSSC)

This national event attracted by the thousands of students representing the entire student population across the country and was conducted on a regional basis covering 9 provinces and two age categories. The competition was organized by CSSL in collaboration with the ICT branch of Ministry of Education. The two categories were students under 17 years of and below 19 years of age. The competition consisted of two rounds and those were the preliminary round and the final round. Students applied to this competition had to solve problems using their programming skills and also soft skills such as teamwork, communication were evaluated.

The preliminary round was carried out with a written paper and it was held at provincial level. The final level was an online examination and contestants had to design computer programs Winners were selected by an independent scholars through evaluating both written and online tests. Winners of the competition are,

Under 17 years

1st Place – N. M. Kurunasinghe

2nd Place – H Heiyanthuduwa

3rd Place – S.T. Edirisuriya

Under 19 years

1st Place - P.H.P. Jayathilake

2nd Place – W.R.A.A.D. Wijesinghe

Treasure's Message

The financial statement for the year ended 31st March 2020 is presented with this AGM report. The key revenue contributor for this year was the National IT Conference netting a profit of 7.6 million

Secretarial expenses were reduced by 1.4 Million in comparison to the year ended 2019 to 7.8 million. Further our Fixed deposit base was increased by 6 million yielding a total Fixed Deposit base of 21.55 million as at year ended 2020

Despite various challenges, we have achieved a net profit of 3.2 million for the year under consideration.

Dr. Parakum Pathirana – Treasurer

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF THE COMPUTER SOCIETY OF SRI LANKA

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of The Computer Society of Sri Lanka, which comprise of the statement of financial position as at March 31, 2020, and the statements of comprehensive income, changes in reserves and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Society as at March 31, 2020, and of its financial performance and its cash flows for the year then ended in accordance with Sri Lanka Statement of Recommended Practice for Not for -Profit Organizations (including Non-Governmental Organizations).

Basis for Opinion

We conducted our audit in accordance with Sri Lanka Auditing Standards (SLAuSs). Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Society in accordance with the ethical requirements of the code of ethics issued by CA Sri Lanka (code of ethics) that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with the code of ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with Sri Lanka Statement of Recommended Practice for Not for -Profit Organizations (including Non-Governmental Organizations) and for such internal controls as the management determines are necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the management is responsible for assessing the Society's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Society or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Society's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Sri Lanka Auditing Standards (SLAuSs) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of the auditor's responsibilities for the audit of the financial statements is located at Sri Lanka Accounting and Auditing Website at: http://slaasc.com/auditing/auditorsresponsibility.php. This description forms part of the auditor's report.

Report on Other Legal and Regulatory Requirements

As required by section 163 (2) of the Companies Act No. 07 of 2007, we have obtained all the information and explanations that were required for the audit and, as far as appears from our examination, proper accounting records have been kept by the Society.

CSSL Code of Ethics

Every CSSL member is expected to uphold and respect the dignity, honour and value of being a professional. CSSL stresses that every professional should act as a responsible Sri Lankan first and foremost before he/she can become a successful professional. CSSL, at all instances, expects the conformance of all individuals involved to have as per the following CSSL Code of Ethics:

1. Professionalism

That you will work to improve the value and virtue of the society and respect all its members while protecting the safety, welfare and health of the community.

2. Professional Development

You will always work in your professional interests to develop your career while also enhancing the professional development of your colleagues and fellow staff.

3. Added Value to Sri Lanka

You will work diligently to strive to enhance the value of Sri Lanka and its citizens in any possible way and place the interests of your country above those of personal sectional interests.

4. Honesty

Maintain honesty in all dealings and in your representation of knowledge, skill and services. In addition to that, you are required to strive in order to protect the public from misinformation and misinterpretation.

5. Competence

You will pay meticulous and diligent attention to work competently for your stakeholders and perform services only in areas of competence.

CSSL Code of Conduct

As members of CSSL, we identify the value of our technologies and the role it plays in the development of Sri Lanka in addition to how it can affect the quality of life, both in Sri Lanka and across the world. We acknowledge our profession and as members of CSSL, we are obligated to commit ourselves to working with the highest standards of responsibility, integrity and professional and ethical conduct.

We hereby agree to be bound to the rules mentioned herewith which are as per the core values set in the CSSL Code of Ethics:

1. Professionalism

a) To protect all confidential information belonging to CSSL and any personal information of CSSL employees, members, clients and other stakeholders.

b) Not conforming with competing individuals to fix rates or reduce price competition through the allocation of markets or customers and not manipulating bids in any process of bidding or partaking in activities that will lead to restricting trade.

c) To not infringe or misuse any intellectual property.

d) Unfailing promise to treat all people with fairness

e) Not engaging in harassment of any nature, be it sexual harassment, bullying or cyberbullying, in person, via technology or otherwise.

f) Not being discriminatory in any aspect irrespective of age, colour, disability, ancestry, origin, race, religion, gender, appearance, political affiliation, marital status, etc)

g) Being respectful to everyone, inclusive of CSSL members and behaving in a professional manner.

h) Respectful to the privacy of all individuals and protecting their personal data and information.

2. Professional Development

Being well informed about new technological trends, standards and practices that are of relevance to your work. You will be expected to offer your skills and advice and therefore, knowledge in this field should be up to standard and you should encourage the same for your colleagues and staff.

Ensure that the knowledge and experience that you have acquired are shared in such as way that the recipient can enhance his/her skills and effectiveness in work and show more keenness to shoulder additional responsibilities. As per the above values, you are expected to:

a) Work towards upgrading your knowledge and skills

b) Being aware if any issue has a subsequent effect on the profession and on public relationships

c) Support training, professional and educational development in the ICT sector of Sri Lanka to accommodate the varied requirements of employees, students and colleagues to pursue their profession

d) You should pay diligent attention to enhance the image, reputation and status of the ICT field and that of the profession.

3. Added value to Sri Lanka

No matter what professional activity we engage in, one underlying objective all CSSL members uphold is to add value to our country - Sri Lanka.

Building our nation together and taking it to greater heights will always be the sole interest of all CSSL members.

Every CSSL member will look for ways in which they can contribute to the development of the country with their professional expertise.

4. Honesty

At all times, do not breach the trust the public has in the profession and neither the specific trust of your stakeholders. Utmost honesty and integrity should be the underlying factor in all your professional actions and decisions.

Undoubtedly, many circumstances will arise during the course of your professional career where it can be advantageous for you to be deceptive in some way or the other. In any event, this type of behaviour and professional conduct will not be acceptable.

In accordance with this value you will:

a) Strongly reject bribery of any form.

b) Avoid real or perceived conflicts of interest whenever possible and disclosing it to the affected parties, should they exist.

c) Avoid knowingly misleading a client or potential with regards to the sustainability of a product or service.

d) Be clear with distinguishing between your professional and personal opinions and advice.

e) Always give realistic estimates for any projects under your control.

f) Give credit for the work done by others wherever credit is due.

g) Recognize professional opinions which you know are based on limited knowledge and experience.

h) Avoid attempting to augment your own reputation at the expense of another's.

5. Maintain competence

Only accept such work which you believe you are competent and able to perform. Do not hesitate to enlist additional expertise from appropriately qualified individuals when deemed advisable. You should always be well aware of your own limitations and never knowingly imply that you have the competence you do not possess. This does not hold true for accepting a task that calls for additional expertise other than your own for its successful completion. You are not expected to be knowledgeable in all facets of ICT but you are expected to be cognizant of when you require additional expertise and information.

In accordance with this value you will:

a) Make sure at all times to provide products and services which are in accordance to the operational and functional requirements of your stakeholders.

b) Avoid misinterpreting your skills and knowledge.

c) Respect and protect your stakeholders' proprietary interests.

d) Be continuously updated and aware of relevant standards and legislations and act accordingly.

e) Accept full responsibility for your work.

f) Advice your stakeholders when you genuinely believe a proposed project, product or service is not in their best interest.

g) Respect and whenever necessary, seek the professional expertise of colleagues in their areas of competence.

h) You are required to have a passion and willingness to develop skills, knowledge and competence in the field of ICT.
